

JEREMIAH DIBOLL

Relevant Experience

The Iron Yard

Full Stack Web Developer

Tampa/St. Petersburg, FL

Jun 2017 to Current

The Iron Yard is a 12-week coding bootcamp specializing in highly focused, immersive training centered on language fluency, object-oriented programming, and project-based learning.

Projects:

- Video Store Checkout App:

A web app built using C# and .NET core 2.0. Additionally, it uses PostgreSQL and locally stored database and tables. Front-end uses Razor pages and Bootstrap. You have the ability to add/delete/edit movies. You have the ability to checkout movies to people. You can add/delete/edit people. When checking out movies you can set the due date. Also, you have the ability to check-in the movie.

- Mystery Word Game:

A version of the familiar game hangman using NodeJS and the dictionary file on your computer. Front-end uses HTML and CSS. You are given 8 guesses. You lose a guess when your guess is incorrect. If you fail to guess the word within those 8 guesses, it will reveal the full word.

- Calculator:

This is a JavaScript calculator. It will do simple mathematical functions. It's all front-end using HTML, CSS, and of course JavaScript.

- Rock, Paper, Scissors:

This a JavaScript only game. It runs through the console of the browser. It best of five versus the computer. It keeps track of how many times you win, lose, and tie. At the end of five rounds it will tell you who the overall winner is.

Amazon.com

Fulfillment Associate

Ruskin, FL

Nov 2016 to Mar 2017

Utilize technological solutions to address customer orders on all levels of the multi-level mezzanine, ensuring accurate packing and shipping as well as troubleshooting problems as they arise.

AIMS Benefits

Licensing Associate

Montgomery, AL

May 2015 to Aug 2016

Manage insurance agent records database, keeping consistent track of license status for accuracy and that stakeholders meet education requirements.

United States Air Force

Commissioned and Non-Commissioned Officer

Various Locations Worldwide

1997 to 2015

Started as depot-level Avionics Systems Maintenance Technician for the RC-135 Reconnaissance Aircraft in Nebraska. Promoted to Shift-Leader. Then moved to Lead Technician position for Flightline Maintenance. I was then selected to attend Officer Training School and become a commissioned officer. I became the Flight Commander for multiple flights within the Munitions Squadron leading 200+ members in Texas. I was then selected to be an instructor at Officer Training School and was recognized as the Instructor of the Year for 2010 in Alabama. After my time there I was hand-picked to be the Maintenance Flight Commander at a Geographically Separated Unit in Belgium.
