JEREMIAH DIBOLL

Relevant Experience

The Iron Yard
Full Stack Web Developer
Tampa/St. Petersburg, FL
Jun 2017 to Current

The Iron Yard is a 12-week coding bootcamp specializing in highly focused, immersive training centered on language fluency, object-oriented programming, and project-based learning.
Projects:
  - Video Store Checkout App
  - Mystery Word Game
  - Calculator
  - Rock, Paper, Scissors

Amazon.com
Fulfillment Associate
Ruskin, FL
Nov 2016 to Mar 2017

Utilize technological solutions to address customer orders on all levels of the multi-level mezzanine, ensuring accurate packing and shipping as well as troubleshooting problems as they arise.
- Highly proficient in using Amazon's proprietary order system to ensure speed and accuracy of orders in process of traversing to customers.
- Hand-picked to learn and implement Amazon's inventory sorting software and proprietary automated robots.

AIMS Benefits
Licensing Associate
May 2015 to Aug 2016

Manage insurance agent records database, keeping consistent track of license status for accuracy and that stakeholders meet education requirements.
- Handpicked to acquire new web-based record-keeping database, releasing significant amounts of space on server and allowed for remote access to over 6,000 records

United States Air Force
Assistant Director of Operations
Maxwell AFB, AL
2010 to 2011

Oversaw Train the Trainer programs for new instructors and directed all aspects of training and certification program.
- Revised and taught 42-hr Qualification Course which certified 14 new Basic Officer Training instructors, reducing time to train from 3 weeks to 1 week and removing extraneous lessons to limit overlap
- Collaborated in leadership position on workgroup designed to merge three separate Officer Training Courses in one which reduced training by three weeks while retaining high performance.

Instructor and Flight Commander
Maxwell AFB, AL
2008 to 2010

Led initial training for over 600 personnel annually through 736 syllabus hours and oversaw the evaluation of competency.
- Led record 112 trainees through the 60-day course to become commissioned officers in United States Air Force.
- Identified numerous flaws with training procedure and was hand-picked to develop a new one, resulting in successful testing over three classes and being part of teaching curriculum as new aid.

Production Flight Commander
Dyess AFB, TX
2006 to 2008

Led 106 employees in four diverse work centers; managed $143M Munitions Storage Area covering 111 acres including 3 maintenance facilities, 50 vehicles, and 59 munitions trailers.
- Managed consolidated tool kit upgrade using Lean Six Sigma principles; created self-sustaining kit and reduced travel to support section by 90%
- Managed aluminum rail set test; identified faulty component and suspended use, preventing a possible mishap

Armament Flight Commander
Dyess AFB, TX
2005 to 2006

Directed 63 people in the maintenance of equipment and facilities valued at over $500M supporting a 36 B-1 Lancer aircraft fleet.
- Managed high profile upgrade of hardware and software for 58 rotary launchers and 14 bomb modules enabling greater capability for aircraft fleet.

Avionics Electronics Maintenance Technician and Supervisor
Offutt AFB, NE
1997 to 2005

Responsible for all aspects of avionics systems maintenance on RC135 reconnaissance aircraft to include hardware and software.
- Skilled troubleshooter in electronic warfare systems and computer controlled automatic test equipment
- Supervised, managed and trained personnel on maintenance of RC135 avionics systems, individual components and computer controlled automatic test equipment
